

UNITED STATES OF AMERICA
DEPARTMENT OF TRANSPORTATION
PIPELINE AND HAZARDOUS MATERIALS SAFETY ADMINISTRATION

**HAZARDOUS MATERIALS
CERTIFICATE OF REGISTRATION
FOR REGISTRATION YEAR(S) 2022-2023**

Registrant: SISBRO INC
ATTN: Glenn Meyers
PO BOX 3765
QUINCY, IL 62305

This certifies that the registrant is registered with the U.S. Department of Transportation as required by 49 CFR Part 107, Subpart G.

This certificate is issued under the authority of 49 U.S.C. 5108. It is unlawful to alter or falsify this document.

Reg. No: 051922550060E Effective: July 1, 2022 Expires: June 30, 2023

HM Company ID: 19350

Record Keeping Requirements for the Registration Program

The following must be maintained at the principal place of business for a period of three years from the date of issuance of this Certificate of Registration:

- (1) A copy of the registration statement filed with PHMSA; and
- (2) This Certificate of Registration

Each person subject to the registration requirement must furnish that person's Certificate of Registration (or a copy) and all other records and information pertaining to the information contained in the registration statement to an authorized representative or special agent of the U. S. Department of Transportation upon request.

Each motor carrier (private or for-hire) and each vessel operator subject to the registration requirement must keep a copy of the current Certificate of Registration or another document bearing the registration number identified as the "U.S. DOT Hazmat Reg. No." in each truck and truck tractor or vessel (trailers and semi-trailers not included) used to transport hazardous materials subject to the registration requirement. The Certificate of Registration or document bearing the registration number must be made available, upon request, to enforcement personnel.

For information, contact the Hazardous Materials Registration Manager, PHH-52, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue, SE, Washington, DC 20590, telephone (202) 366-4109.

Class 9 Bulk Transportation Regulations

The following is according to:

Title 49 - Transportation

Subtitle B – Other Regulations Relating to Transportation

Volume 2

Chapter 1 – Pipeline and Hazardous Materials Safety Administration, Department of Transportation.

Part 172.504(f)(9) it reads as follows:

For Class 9, a CLASS 9 Placard is not required for domestic transportation, including that portion of international transportation, defined in 171.8 of this subchapter, which occurs within the United States. However, a bulk packaging must be marked with the appropriate identification number on a CLASS 9 placard, an orange panel, or a white square-on-point display configuration as required by subpart D of this part.

(A Bulk Solid is defined as any package that is 882 lbs or more).

(This tells us that Class 9 does not require a driver to have a Haz-Mat Endorsement to haul this freight, as the Placard is not required. However a label is required and a CLASS 9 Placard marked with the correct UN # can be used in place of the label.)

The examples below show the label that is required as a minimum, also shows the CLASS 9 Placard that is also acceptable:
